

If you had access to additional ICT expertise, how would you want to use it?

Education Vision Consultancy (EVC) is able to offer specialist expertise in a range of areas and additional capacity to support work in over-stretched ICT departments, including any of the following.

- Running CPD or training sessions for groups or individuals (teachers, learning assistants, office staff or others)
- Reviewing and developing policies (eg. e-safety, use of ICT, staff and ICT), ICT visioning, writing an ICT strategy, etc
- Introducing the teaching of programming
- Introducing HTML coding – taught as a short module, this can be an engaging area of study that introduces pupils to some basic underlying principles illustrating aspects of how computers work. This could be one element if a department wanted to increase their focus on computer science.
- Audio podcasting – recording hardware, digital audio editing, teaching strategies and module development, resource development, etc
- Digital photography and image editing – different styles of photography for different purposes, composition, editing and enhancing of digital images
- ICT audit (eg using the ICT Strategic Review Framework), E-safety audit (eg using the 360 Degree Safe self review tool) or learning platform review
- Giving an e-safety presentation to parents and governors...or something else...?

Secondary Select
Packages

The *Starter package* allows a school to focus on one or two areas, whilst the other packages offer progressively more scope and flexibility and the opportunity for a closer partnership.

If you cannot see a package that meets your needs exactly please get in touch to discuss this further.

- "Expert in residence" up to 24 visits/meetings* per year
- "Regular contact" up to 15 visits/meetings per year
- "Intermediate" up to 9 visits/meetings per year
- "Starter package" up to 5 visits/meetings per year

**Contact us for
current pricing**

**Up to two and a half hours on-site. Visits must take place within 12 months of the start of support and cannot be carried forward into subsequent years. There is no VAT to add.*

EVC is an independent education consultancy operated by Mark Baker, formerly ICT Adviser for Bracknell Forest Council and Regional Delivery Adviser for Becta. Mark has many years experience running CPD, training and consultancy sessions for schools and local authorities. He has particular interests in e-safety, learning platforms, programming, photography and audio podcasting. See the [Education Vision website](http://www.educationvision.co.uk) for more information and a free resources area.
